TAPESTRY 2a - light yellow, frilled	.35	ZIRCON 2b - white, light yellow	.80

SEEDLINGS - BETTER MIXTURE	\$3.00 per dozen
SEEDLINGS - RED CUP MIXTURE	3.00 per dozen
SEEDLINGS - PINK MIXTURE	3.00 per dozen
SEEDLINGS - LEMON MIXTURE	4.00 per dozen

Do not expect all of these seedlings to come true to color, as there may be an occasional stray among them; and some pinks or red cups will not develop color in all areas every year. However, there are some very nice flowers among all these groups, and they are desirable for those not interested in growing their Daffodils under name. The pinks, especially, are not sold with the understanding that most of them will come with good color.

DISCOUNTS ON EARLY ORDERS

As is our usual custom, we give discounts on early orders. If your order totals \$10.00 or more, and is mailed to us accompanied with full remittance by May 1st you may deduct 10 per cent from the list prices, excepting on items marked (net). These varieties are new and the stocks too small to offer at less than list prices. Quotations are for double nosed bulbs excepting species and some of the smaller varieties which normally make a small percentage of double nosed bulbs. Of these we send good blooming size round bulbs. Shipments begin going out about September 1st or a bit earlier.

Since a large percentage of these lists are mailed to those who have not ordered from us in the last two or three years, those among this number may not receive our 1962 catalog unless you order or write to us again. However, please wait until about July 1st before writing for a copy. Yours should reach you by that time if your name is still on our mailing list. We expect to have them mailed out early in June.
